Engineering the future

Welcome to issue 3 of fiNtech, from Amdocs Studios—your insider guide to the financial services universe

This month, we're covering automation and quality engineering. Together, we'll discover how agile, efficient, and future-ready QE can help to deliver seamless, error free, and customer-centric payments and banking experiences—with the right partner. We'll also show how AI-powered automation can optimize quality engineering, and how QE is vital for the success of AI, and Generative AI in particular.

Ready to explore? Let's go...

Wise bytes

Looking ahead

Dror Avrilingi, Head of Quality Engineering (QE), Data & AI Studios, Amdocs, chats to QA Financial about the path ahead for QE in 2025 and beyond, and how AI and QE are natural partners.
